A few hours concept development², 2hr shoot at a location of your choice³ with professional camera, sound and lighting equipment⁴, 3hrs editing including a simple graphic opener or end tag⁵, music track⁶ and delivered in a format suited to your intended use.

The video content is up to you⁷. You could choose an overview of your business and workplace, some client testimonials, introduce yourself and employees, a demonstration of a product or service, or whatever else you might have in mind. If you're not quite sure what's best for you, don't worry, we can help out.⁸
